

Oceans Collective

People at their best

Team 10 Challenge

Every team has untapped potential. We help them to reach their best. And now the Oceans' Team 10 Challenge is aiming to harness collaboration and community to see what more is possible.

How It Works

- We are inviting 10 teams to join the programme.
- Each receives their own Team Effectiveness Report.
- We create with their leader a 6-month development path
- We support the leader along the way so the team moves forwards.
- Each month the leader of each team joins the Action Learning Group video call.
- At the end of the Challenge, teams get a new report showing their progress and next steps.

The monthly ALG calls create collaboration and community. The leaders can use that network to leverage each other's team strengths. A team which struggles with focus, for example, can talk to one that is doing well at that. Leaders will bring to the calls their issues and questions about their team's performance. The others offer questions, insights, advice and ideas. All leave with more clarity about what to do next with their own teams. Lessons about leadership emerge.

Time and time again we have seen that our approach provides clarity and reassurance for the team leader. Any frustrations in the team tend to subside and a new sense of energy and purpose is created. Team meetings can go from aimless to focused, from pointless to essential. Organisations get better outcomes and the chance to spread the lessons from one team to others.

Price

The standard package for the programme, as described above is £695.

To really maximise the value from the programme, packages of individual and team coaching are also available.
